

Plantek 576

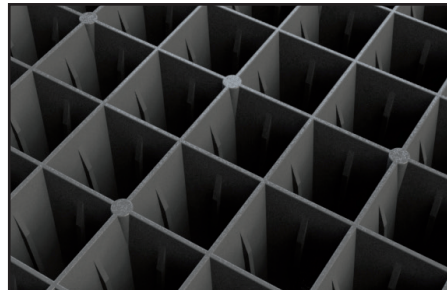

Dimensions:

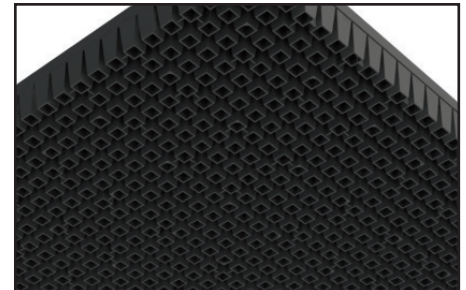

LxWxH mm:	385 x 385 x 30
Cell dimensions (mm):	15 x 15(top), 8 x 8 (bottom)
No. cells:	576 cells (24x24)
Cells/m ² :	3885
Volume/cell:	4,3 cc
Root guiding rib	

outer dimension: 385x385mm

root guiding rib

good drainage

BCC AB has, in co-operation with major plant producers in Sweden, designed and developed a new growing tray: PL 576. The new product is specifically designed to enable efficient growing of forestry seedlings in a micro cell in the greenhouse area and for further transplanting operations.

Please contact BCC AB or your local representative for samples and prices.
